PROMOTIONAL ITEMS FROM WENGER

Agile, up-to-date and at home in the world's cities – but always with its traditional Swiss roots in mind. This is Wenger today. Wenger's bags and luggages are reliable, functional and well designed, and they capture the spirit of the times. They are designed for people who travel a lot and who therefore want to count on a Swiss brand at a reasonable price.

The ultimate all-rounder: Our stylish Bluetooth speaker combines cutting-edge technology with practical design. Equipped with a wireless charging function, it allows for hassle-free charging of your smartphone (depending on the smartphone model). The integrated digital display always shows you the time and other important information. The powerful 2,000 mAh battery ensures hours of music enjoyment. In addition to exceptional sound, this speaker also features an integrated radio, so you can always listen to your favorite stations. A smartphone holder keeps your phone secure and within reach. Thanks to the alarm function, you'll always be on time, and the dimmable lamp with three levels creates the perfect atmosphere for any occasion. Give this multifunctional device a personal touch: your logo is placed directly on the speaker for maximum visibility.
This Bluetooth speaker is not only a technological highlight but also a stylish accessory for your home or office.

SUBLIMATION

Sublimation printing enables the transfer of high-quality, durable emblems, patterns, or images onto the surfaces of various promotional items. This process is based on the use of sublimation inks, which turn into a gaseous state under the influence of heat and penetrate deep into the material of the objects. The result is smooth and long-lasting emblems that stand out for their excellent quality and resistance to abrasion.

OEKO TEX® STANDARD 100 19.0.79660 Hohenstein HTTI www.oeko-tex.com

RECYCLED COTTON

Recycled cotton, also known as reclaimed cotton, offers a sustainable alternative to traditional cotton. It is created from post-consumer and post-industrial cotton waste, eliminating the need for new raw materials. Recycling cotton reduces water and energy consumption while minimizing environmental impact. Choosing recycled cotton products contributes to a greener and more responsible fashion industry, supporting a circular approach to reduce textile waste and conserve resources.

ORGANIC COTTON

ORGANIC COTTON

Organic cotton is grown without synthetic chemicals or pesticides, using methods that promote biodiversity and lower environmental impact. It relies on natural processes like crop rotation and composting to maintain soil fertility and control pests. By avoiding harmful chemicals, organic cotton protects farmers, consumers, and the ecosystem. Its cultivation also reduces water consumption and pollution, making it a sustainable choice. Consumers opting for organic cotton support fair trade practices, ensuring farmers receive fair wages and work in safe conditions. Overall, organic cotton is an eco-friendly and ethical alternative, contributing to a greener and healthier textile industry.

OEKO-TEX

To achieve Oeko-Tex certification, textile products must comply with restrictions on harmful substances, including chemicals such as formaldehyde, azobenzene, chlorinated chemicals, etc. These substances are checked based on ecological and toxicological tests.

Oeko-Tex standards cover the entire production process, including textile materials, fabrics, and finished products. Oeko-Tex certification ensures that the end product is safe for human health and does not contribute to environmental harm.
